Lack of NEPA Documentation for ER Field Work

Erich Evered, Director  
Environmental Restoration  
EG&G Rocky Flats, Inc.

EG&G  
ROCKY FLATS PLANT  
CORRESPONDENCE CONTROL

It has come to our attention that your division has scheduled field work related to geologic site characterization to begin in early June of this year. Our records show that the documentation of environmental impacts for this work required by the National Environmental Policy Act (NEPA) had not been initiated as of May 17. We believe that unless the environmental documentation is completed and approved by DOE before the field work begins, the activities will be in violation of the requirements of NEPA. Thus far, DOE has received no NEPA documentation regarding field work from EG&G.

We are ready to support necessary DOE review and approval of your submittal. We recommend that you contact EG&G NEPA division or Tricia Powell (x3260) to track the progress of the categorical exclusion.
